

"Who says you can't be a pioneer and also a traditionalist? I was the first Natura® client in the U.S. at San Domenico and I continue the tradition at our brand new SD26.

I recognized long ago Natura's benefits to our customers and Marisa agreed, 100%.

Three years later, everybody wants it!"

Tony May,
SD26,
New York, NY

"I'm proud to continue my father's pioneering tradition - with a new twist. SD26 sparkles with design and breathes innovation throughout. From our Enomatic wine bar right down to our state of the art kitchen, serving Natura® Water!

Some say Natura® sparkling matches my personality. I say, it's good for the environment."

Marisa May,
SD26,
New York, NY

natura® water; where tradition meets innovation

Natura® is a unique system that connects directly to your own water source, removing impurities and additives, and leaving in all the salts and minerals that make water taste its best. Serve Natura® at room temperature, chilled or sparkling. There's no storage issue, no coolers, glass or plastic bottles to return and replace. Meaning Natura® saves you time, space, money – and the planet.

drink water responsibly.

Water the way nature intended.™
